

# LEEC Quality & Price Guarantee

LEEC have spent many years developing and perfecting the equipment it produces, this is no more evident than when lower quality copy products come onto the market.

LEEC are so committed that no Funeral Director should have to compromise on quality, ***that we promise*** to better any like for like written quotation and, match any warranty guarantee from any of our competitors.

We have been privileged over the years to supply our equipment to hundreds of Independent and Group Owned Funeral Directors who have benefited from many fault free years of service and support.

LEEC has built its reputation on building quality products through experience and instilling the ISO9001 Quality Assurance into every piece of equipment we make.

Don't feel you have to compromise on quality for price, please give LEEC a call today for a free site survey and quotation, we would love to come and visit you.

Kind Regards  
Paul Venners  
Managing Director

Leec aim to exceed customer expectations for quality, delivery and cost through continuous improvement and customer interaction.
